NWT POSTS FINANCIAL RESULTS FOR 2017

The Board of Directors of North West Terminal Ltd. (NWT) announced the Company's consolidated financial results for the fiscal year ended October 31, 2017. Total comprehensive income for the fiscal year was \$6.2 million (\$1.89/share). This is a significant increase from the total comprehensive loss of \$2.6 million (\$0.78/share) that was reported in the prior fiscal year. The Company recorded an unrealized gain on investments of \$4.5 million (net of income tax) in the 2017 fiscal year which was the primary driver of the increase. Additionally, the bio-products division continues to diversify and find alternate markets for non-fuel ethanol which realizes higher margins than fuel ethanol. Consolidated revenues for the period were \$180 million and EBITDA was \$5.4 million.

The financial performance of the Company is ahead of the same period last year when the Company posted revenues of \$140.5 million and an EBITDA of \$3.5 million. Management reported that results were up for both of the Company's business segments. Total comprehensive income from the grain division was higher than the prior year primarily due to an unrealized gain on an investment. Overall increased shipping volumes of ethanol, which included a 75% increase in shipments of non-fuel ethanol, helped to significantly improve the financial performance of the bio-products division over the prior fiscal year.

"The Board of Directors is pleased with the Company's performance over the past fiscal year," says NWT's President Brad Sperle. "We continue to invest in the future of the Company and undertook several large capital projects in the past year, notably the second platform scale and high-capacity grain dryer in the grain division and the tank farm expansion in the bio-products division." Sperle farms near Unity, Saskatchewan.

NWT is an independent farmer-shareholder owned company headquartered near Unity, Saskatchewan in the North West region of the province. NWT owns and operates an inland-grain terminal and a bio-products manufacturing facility at its Unity location. NWT is also a minority owner of Alliance Seed Corp. (ASC) in Saskatoon, Saskatchewan and Alliance Grain Terminal Ltd. (AGT) in Vancouver, British Columbia.
