NEWS RELEASE

For immediate release.....June 9, 2016

NWT POSTS FINANCIAL RESULTS FOR FIRST 6 MONTHS

The Board of Directors of North West Terminal Ltd. (NWT) released financial results for the Company after its first six months of operations in 2015-16. For the period beginning November 1, 2015 and ending April 30, 2016, NWT posted revenues from consolidated operations of \$75.1 million and an EBITDA of (\$716,107) (unaudited). This resulted in a net loss of \$1,146,906 or 35 cents per share.

The financial performance of the Company is behind the same period last year when the Company posted revenues from operations of \$82.7 million, an EBITDA of \$4,280,999 and a net profit of \$1,982,281, or 60 cents per share. Management reported that earnings from the grain and bio-products divisions were down from the previous year as a result of lower volumes and margins. Margins are reduced for the grain segment of the business as a result of increased competition. Margins are negative for the bio-products segment of the business as a result of the recent drop in crude oil prices.

“The Board of Directors is disappointed but encouraged by the Company’s performance in the first half of the year,” says NWT’s President Brad Sperle. “To date, we have weathered the storm created by low crude oil prices. Now we are cautiously optimistic that the Company is through the worst and that the second half of the fiscal year will see a return to positive earnings,” Sperle farms near Unity, Saskatchewan.

NWT is an independent farmer-shareholder owned company headquartered near Unity, Saskatchewan in the North West region of the province. NWT owns and operates an inland-grain terminal and a bio-products manufacturing facility at its Unity location. NWT is also an owner of Alliance Seed Corp. (ASC) in Saskatoon, Saskatchewan and Alliance Grain Terminal Ltd. (AGT) in Vancouver, British Columbia.
