NEWS RELEASE

For immediate release.....June 14, 2017

NWT POSTS POSITIVE FINANCIAL RESULTS FOR FIRST 6 MONTHS

The Board of Directors of North West Terminal Ltd. (NWT) is pleased to announce positive financial results for the Company after its first six months of operations in 2016-17. For the six-month period ending April 30, 2017, NWT reported revenues from consolidated operations of \$103.5 million and EBITDA of \$3.9 million. This resulted in a net profit of \$1,121,601, or \$0.34 per share.

The financial performance of the Company is significantly ahead of the same period last year when the Company reported revenues from operations of \$75.1 million, EBITDA of \$(716,107) and a net loss of \$1,146,906 or \$0.35 per share. Management reported that earnings from the grain division were up from the prior year due to increased handling volumes and dividend income. Earnings from the bio-products division increased considerably from the prior year because of improved fuel-ethanol prices, lower feedstock costs and the significant efforts of the Company to diversify and find alternate markets for further refined non-fuel ethanol.

“The Board of Directors is pleased with the Company’s performance in the first half of the year,” says NWT’s President Brad Sperle. “The bio-products division continues to face challenges, but our strategy of aggressive expansion of sales to higher value non-fuel markets continues to improve our bottom line. We now have the ability to ship extra neutral alcohol by truck tanker, rail tanker and ocean container to markets across the world,” Sperle farms near Unity, Saskatchewan.

NWT is an independent farmer-shareholder owned company headquartered near Unity, Saskatchewan in the Northwest region of the province. NWT owns and operates an inland-grain terminal and a bio-products manufacturing facility at its Unity location. NWT is also an owner of Alliance Seed Corp. (ASC) in Saskatoon, Saskatchewan and Alliance Grain Terminal Ltd. (AGT) in Vancouver, British Columbia.
